Asbestos

17-07-2020

Wastecode

W.DW.S-00226

Composition

Asbestos generally comes in two product forms:

- ✔ Loosely bound: soft insulation boards, filter material, asbestos cord, spray asbestos (as insulation material).
- ✔ Bonded: mixed with substances such as cement or synthetic resin: wall plates, corrugated sheets, gaskets, gas, water and sewer pipes and ventilation ducts.
- ✔ This also includes asbestos-like materials without an asbestos-free declaration.

Excluded

- ✖ Open torn packaging
- ✖ Other materials/contaminants

Packaging and other requirements

Asbestos delivery mandatory in multi drop-off containers, (asbestos) big bag with inner pocket,

double packed in transparent plastic, hermetically sealed, dumpster with asbestos big-bag.

Other requirements

The asbestos/asbestos-like material must be presented separately, notified and collected in the aforementioned packaging.
